Notes on Close: I heard an alarm going off in the Walmart area and arrived on scene for the alarm at Walmart to be going off and the overnight employees actively turning it off. The overnight manager came out and spoke with me stating the alarm had been randomly going off the past few days.

Notes on Close: An RP came into the PD and advised that a male juvenile came to his house and said that his friend's juvenile sister was missing. I was able to find out where the missing juvenile's parent lived. I went to that location and spoke with the parent who advised that the juvenile was home and she had been walking home from the park. the parent was able to show me the juvenile who advised she was fine.

Notes on Close: I responded to scene for a report of an individual yelling at the RP's children for damaged flowers. I spoke with the owner of the flowers and they advised they thought they had been damaged by the RP. They advised they had not yelled at the juveniles, and they were going to have the property manager check video footage to prove their story. I advised we would look at the footage when they had it available and would take further actions based on what it showed.

Notes on Close: Female came into the PD to report her cat missing. She described the cat as black with gold eyes and requested she be contacted if we should see in while on patrol. She also stated she would be bringing in a poster with the animal's description and information. I advised I would pass the information on.
